

We are looking for: Web / Mobile Application Developer

COMPANY eLoaded GmbH - Feldstraße 1b, 6020 Innsbruck
dev@eloaded.eu

eLoaded GmbH, leading company of EV-infrastructure innovation, is looking further to expand the software development team based in Innsbruck. The company is committed to push the electrification of transport systems and to provide the best user and business experience, to simplify one of the most important topic of the decade.

WE HIRE YOU!?

Your job will be focused on the development of the mobile application for end users, the portal for business users and the communication protocols to interface the EV-infrastructure

RESPONSABILITIES

- Understand core business of the company.
- Develop the application from the web front-end to the back end and understand e-mobility domain.
- Optimize existing processes by proposing strategic & practical solutions.
- Develop cross-mobile application (Ionic and Angular).
- Develop back-end layers (Java Spring Boot, NodeJs + Express, Web API).
- Manipulate databases (MongoDB, writing queries), design data models.

REQUIREMENTS

- Holder of a bachelor's degree in IT or previous working experience in development.
- Having good knowledge about Object-Oriented Programming (OOP).
- Experienced in using Angular 2+ or another TS framework.
- Good communication skills in English

ADVANTAGES

- Work in a company striving for innovation
- Young, friendly and fun environment, you'll create strong relationships with people all over the world
- Work with talented and collaborative coworkers who will both push and support you
- International group & culture

You don't fully meet the requirements, but you are experienced, enthusiastic and convinced to bring value to us – apply! (e.g., we welcome also applications without bachelor's degree)
